

Proposal information

Symposium title

The title must reflect the symposium description

Description of topical focus

Consideration for the description of the symposium:

Write the description of topical focus in paragraph form.

The description must have between 80 and 200 words length.

Make the program description well focused on scientifically. It must be addressed to the researchers who will be submitting proposals to this conference.

This text will be used for promotional porpouse of the symposium and it is important to include all the relevant information.

You can check past editions for ideas if needed.

List of symposium topics

List from 3 to 10 topics to explain topical focus at a glance. Enter only one topic per line. XXX

List of symposium organizers

List of invited speakers
